By signing below, I hereby agree to take care of the adopted pug to the best of my ability and outlined in the adoption contract. I am aware that I need to contact the rescue organization before relinquishing the adopted pug to anyone if the adoption does not work out. (Pug Rescue of NWA has First right of rescission) I also agree to let Pug Rescue of Northwest Arkansas, Inc. know if I move so that we can stay in contact.

---

**Adoption Applicants:** We require all pugs to be maintained on heartworm and flea/tick preventative throughout the pug's life unless a letter from a veterinarian is submitted. All pugs are micro-chipped and up to date on all shots and will be spayed or neutered.

## Did You Know

Pugs are frequently stolen right out of the owner's yard.

Pugs Shed quite a bit. (Diet and Brushing can help)

Pugs have always been companion animals and they will want to be with you constantly.

Pugs have tendency to snore.

Pugs should ALWAYS be on a leash when outside the home/fence. They have a terrible sense of direction.

Pugs should ALWAYS have a current ID tag because they rarely find their way home if lost.

Pugs rarely swim. They are very dense for their size. Use extreme caution around Water.

Pugs should not be outside in Extreme Heat or Cold.

I have read and understand the above information.
